Shipping Name Rapaid Powder

Rapaid Powder

PHYSICAL PROPERTIES

Molecular Weight:	Not applicable
Boiling Range:	"
Melting Range:	"
Specific Gravity:	N/A
Water Solubility:	Non miscible
Evaporation Rate:	Not available
State:	Powder
Vapour Pressure:	Not available
Volatile Component (%Vol):	"
Relative Vapour Density:	"
Flash Point:	Not applicable
Lower Explosive Limit (%):	"
Upper Explosive Limit (%):	"
Autoignition Temp©:	"
Decomposition Temp ©:	Not available

APPEARANCE

White to slightly off-white with a distinctive Melaleuca Oil odour.

INGREDIENTS

	CAS No. %
Oil of Melaleuca alternifolia	1.0
Zinc Oxide	20.0
Corn Starch Powder	19.8
Talc Powder	

USE

A medicated powder to help treat, prevent and offer relief from rashes, chafing, irritations, perspiration and foot odour.

SYNONYMS

None

HEALTH HAZARD

ACUTE HEALTH EFFECTS

SWALLOWED

Considered an unlikely route of entry. It is doubtful whether enough could be ingested to cause any irritation to the gastro-intestinal tract, or cause any pain or vomiting. Pure Melaleuca Oil is considered toxic. However formulation under 25% are considered non toxic. Oral Toxicity Testing indicated the LD50 to be greater than 10g/kg, indicating very low potential irritancy.

EYE

Considered a mild irritant to the eye and may cause some smarting and redness.

Rapaid Powder

SKIN

Generally considered a non-irritant. However prolonged exposure may cause some mild irritation and redness. Zinc oxide may cause irritation to a small percentage of users, and in rare cases skin contact with 1% Melaleuca alternifolia may cause some irritation during use.

INHALATION

Not known.

CHRONIC

Prolonged contact may cause slight irritation or redness for a small number of people. Pure Melaleuca Oil is considered an irritant, however percentages under 10% are usually considered non-irritants for short term topical contact. Zinc Oxide can cause irritation to a small percentage of users.

FIRST AID

SWALLOWED

If swallowed, give a glass of water.

EYE

If in contact with the eyes, hold eye open and flush out the eye - especially under the eyelids with fresh water or saline solution. Seek medical attention if any irritation continues.

SKIN

If irritation occurs, discontinue use and wash off with fresh water.

INHALATION

Not known

OTHER

Melaleuca Oil is generally considered a non irritant in inert formula's below 10% concentration, and considered non toxic at levels of less than 25% concentration. Industry studies indicate allergic reaction to products containing less than 10% Melaleuca Oil is rare, and usually involves some redness of the skin.

Toxicity	LD50>10g/kg
Skin Sensitisation	Non irritant
Skin Irritation	Non irritant
Eye Irritation	1 Draize Scale - very mild irritant

ADVICE TO DOCTOR

Treat symptomatically. Refer to individual constituents

PRECAUTIONS FOR USE

EXPOSURE LIMITS

Not known

OTHER EXPOSURE INFORMATION

None

ENGINEERING CONTROLS

None

PERSONAL PROTECTION

No special equipment required for normal handling

PROTECTIVE EQUIPMENT

None required

FLAMMABILITY

Non flammable

FIRE HAZARD

None

SAFE HANDLING INFORMATION

STORAGE AND TRANSPORT

Store in packaging provided.

STORAGE PRECAUTIONS

Keep containers securely sealed. Store in a cool dry area. Avoid sunlight.

SHIPPING NAME (CSN)

None

SPILLS AND DISPOSAL

SPILLS AND LEAKS

Vacuum or absorb with damp sponge. Place in waste disposal.

FIRE/EXPLOSION HAZARD

FIRE EXPLOSION HAZARDS

Not known

HAZARDOUS REACTION

None known

OTHER INFORMATION

ENVIRONMENTAL PROTECTION

Generally considered non-hazardous to the environment.
